S I R :

SECOND INFORMATION DISCLOSURE STATEMENT

Respectfully submitted herewith is a copy of a European Patent Office Search Report (4 pages) from a corresponding European patent application together with copies of 5 of its 6 cited references. The 6th reference EP 0 334 343 was already previously filed in an IDS on May 21, 2002. Nevertheless further points of relevance of this reference may be found in this European Patent Office Search Report.

In the European Patent Office Search Report the references listed with an A mean that these reference define the general state of the art which is not considered to be of particular relevance with respect to the listed claims in the European application. The references listed with a Y mean that these documents are of

particular relevance with respect to the listed claims in the European application, and the claimed invention cannot be considered to involve an inventive step when these documents are combined with one another, such combination being obvious to a person skilled in the art. The references listed in category X mean that each of these references considered alone is of particular significance with respect to the listed claims:

In the European Patent Office Search Report the words "Einschlägige Dokumente" means relevant documents, "Kategorie" means category, "Kennzeichnung des Dokuments mit Angabe, soweit erforderlich, der massgeblichen Teile" means designation of the documents with statements as far as necessary of the relevant parts, "Betrifft Anspruch" means concerning claim, "Seite" means page, "Zeile" means line, "Spalte" means column, "Abbildung(en)" means Fig(s). or illustration(s), and "Zusammenfassung" means abstract or summary. Since this translation now points out in English the relevant portions of the citations listed in the European Patent Office Search Report, and since the European reference and the two Patent Abstracts of Japan are in the English language, no further concise explanation is required.

A PTO-1449 form is presented listing the 5 submitted references.

Translations of the foreign language references are not available to the undersigned.

A certification under 37 CFR 1.97(e) is presented herewith

This submission meets the requirements of 37 CFR §1.56, 1.97 and
1.98(a) and MPEP 609.

Respectfully submitted
Winfried Möll
